

Mobile versions of your Microsoft Dynamics™ CRM implementations created automatically

- ✓ the only solution offered in the Software + Services model
- ✓ individualized CRM Customization – included automatically
- ✓ all three instances supported: Online, Partner-hosted, or On-Premise
- ✓ customer's data stays in its original place
- ✓ nothing needs to be installed on the CRM servers

Access your CRM data using any Windows Mobile device
- online or offline with synchronization - after investing just 15 minutes

If you are a Microsoft Dynamics Partner, try it at www.MobileConnector.com/MSCRM, and then **use our "mobilization service" to offer your customers your own, on-demand, mobile service ... without any investment, using Logotec's service in the background.**

PARTNERS WANTED!

Mobile@Connector

*MS CRM user:

*MS CRM password:

Adapter Type: MS CRM Live
 MS CRM 4
 MS CRM 3

*Server address:

*Required field **Continue**

If you know a way to make it easier let us know

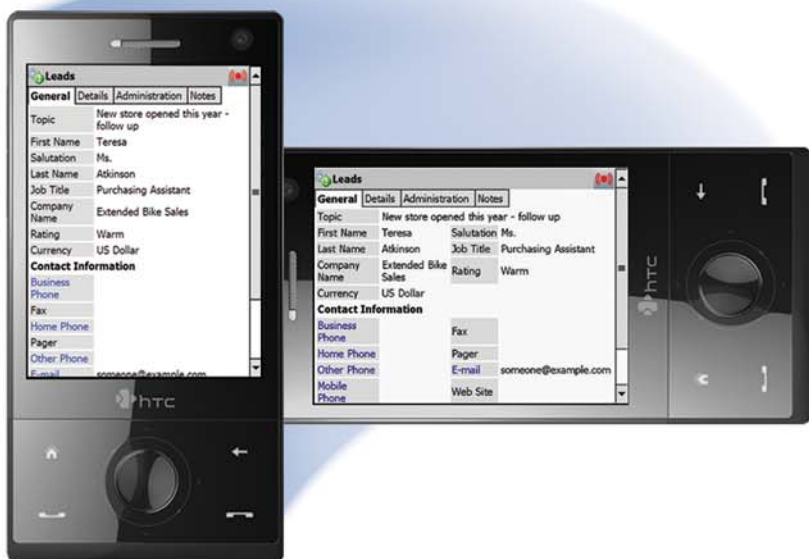

How it works:

- ✓ go to our service (www.MobileConnector.com/CRM)
- ✓ enter the address of your CRM server
- ✓ ... and let the service create mobile version of your Microsoft Dynamics CRM

Note:

- ✓ the mobile application generated includes your specific Microsoft Dynamics CRM customization (data structure, design, etc.) ... automatically
- ✓ all three deployments supported: Microsoft CRM Live, Partner-hosted, and On-Premise
- ✓ Windows Mobile 6.1, 6.0 and 5.0 devices supported
- ✓ 30 days free-of-charge trial
- ✓ €25 (\$25 US/Canada) per person/month after trial
- ✓ simple month-to-month plan, no long term commitments

Optimal use of the screen size with dynamic screen re-design

Finger navigation or traditional toolbar
